SUMMARY

Results-driven Full-Stack Web Developer with hands-on experience in building scalable web applications using React.js, Node.js, Firebase, Convex and Supabase. Proven ability to design secure authentication systems, implement role-based access workflows, and deploy production-ready applications on VPS environments. Experienced in developing performance-optimized platforms such as PDF utilities and corporate networking systems. Strong foundation in Java, JavaScript (ES6+), SQL, and modern web technologies, with a problem-solving mindset demonstrated through 100+ LeetCode challenges. Passionate about building efficient, user-centric digital solutions.

EXPERIENCE

Full Stack Web Developer at Yoi Media LLP

Sep 2025 - Present

- Delivered 6+ production-ready web applications using React.js and Next.js, tailoring tech stacks based on client requirements.
- Built and deployed scalable backends using Node.js, Convex, Supabase, and Firebase, handling authentication, database design, and role-based access control.
- Developed AI-powered chatbot integrations and automated business workflows using n8n for process optimization.
- Designed flexible admin dashboards and flow-based management systems for dynamic content and user control.
- Integrated Google Analytics, Google Tag Manager, and Google Cloud Console for performance tracking, event monitoring, and deployment configuration.
- Implemented SEO best practices including structured metadata, performance optimization, and search visibility enhancements.
- Managed VPS deployments and production hosting environments.

EDUCATION

Bachelor of Technology in Information Technology

2021 - 2025

Gurunanak Institute of Technology

Intermediate in Maths, Physics, Chemistry

2019 - 2021

Sri Chaitanya Junior College

SKILLS

Frontend	React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Responsive Design
Backend	Node.js, Express.js, Convex, Supabase, Firebase, MongoDB
Tools & DevOps	Git, n8n, Google Analytics, GTM, Hostinger, Vercel, VPS Deployment
Concepts	Authentication, Role-Based Access Control (RBAC), SEO Optimization, Chatbot Integration

PROJECTS

PDF PLAY

- Developed a high-performance web utility for merging, splitting, converting, and optimizing PDF files.
- Built with React.js and modern web technologies, prioritizing speed and scalability.
- Implemented extensive SEO optimizations to ensure high search engine visibility and user acquisition.

PIVOT LEGAL

- Engineered a professional platform for lawyers with a clean, responsive React frontend.
- Utilized Supabase for secure backend data management and authentication.
- Integrated Node.js for secure payment processing and n8n for automated client communication workflows.

Yoi Onboarding Dashboard

- Created a dynamic onboarding and management platform using React.js and Convex.
- Implemented real-time database management with secure approval workflows and structured data handling.
- Deployed to Hostinger, ensuring reliable uptime and smooth production performance.

ACHIEVEMENTS

- Solved 100+ Data Structures and Algorithms problems on LeetCode.
- Participated in competitive programming contests and college-level hackathons.
